INSTRUCTIONS TO BIDDERS.

Coins and medals are sold at so much per piece, U. S. proof sets excepted. You cannot bid for one piece in a lot. If a lot contains ten pieces, and you desire to offer \$2 for it, make your bid 20c. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to \$2.50, when 10c. is the limit, up to \$10, and thereafter not less than 25c. Hence any bid up to 50c. can be entertained, but after that the bid must be 55c., 60c., and so on. Such offers as 53c., \$1.01, and all intermediate figures are unavailable.

INTRODUCTORY NOTE.

THE preparation of this Catalogue has been a work of peculiar pleasure and interest to me, not simply because it represents a collection of special and unusual value in itself, but also because it is a monument of the industry, judgment and knowledge of an old personal friend to whom I frankly acknowledge indebtedness for my earliest instruction in the study of Numismatics, and for advice and assistance in many of its devious and difficult by-ways. He is about to retire from the field of his activity, which he has graced for a period of nearly forty years, and now offers at public auction this splendid collection, the final witness of his long continued and critical studies in this wide domain of his favorite science.

In the following pages among his valuable, and, in a great many instances, extremely rare acquisitions, especial attention is called to the groups which, for the past fifteen years, have absorbed so large a share of his attention; I refer to the Spanish-American Proclamation Pieces, a division in which he must be ranked as a pre-eminently distinguished authority. This lot contains an unusual number of extremely rare examples, some of which are for the first time described.

The same may be affirmed of the Store Cards, amongst which some will be noticed whose duplicates it would be difficult if not altogether impossible to find. I believe collectors will discover much that is curious, interesting and valuable, in the present collection, aside from those pieces which, from their exceeding rarity, must necessarily prove desirable for any cabinet.

A specimen in Levick (no other then known to Cataloguer) brought \$8.25. This piece was undoubtedly the work of Wright & Bale (1829-34), and closely imitating their own and the card of Henderson & Lossing, though I judge it to be earlier than either.

Theodore McNamee, Henry C. Bowen, Saml. P. Holmes and Henry L. Stone formed a copartnership in 1838, under the style of Bowen & McNamee, and began business at 16 William Street. In 1843 they built on the premises at 112 and 114 Broadway. Here Anthony Gilkinson was admitted to the firm. In 1855 they built on the corner of Pearl and Broadway. Mr. McNamee withdrew from the firm in 1858, and, after a time, he accepted a confidential position with A. T. Stewart, and later with H. B. Claflin & Co., where he remained until his death in 1871, at the age of 58.

Thos. L. Clark, Mr. Bushnell states in his work on Cards, Tokens, etc., 1858, cut the dies of the R. T. Thomas card. If this is a fact, then we may conclude he also cut Gosling's, Museum Hotel, Smithsonian House, Swift & Fargo, A. D. Thompson, and Upson.

Dr. Lewis Feuchtwanger's first business location appears to have been at 377 Broadway, where he remained from 1831 to 1837; thereafter, to 1857, his changes were numerous and wide roving, considering the limits of the city within the period. He is found at 12 different addresses, ranging from No. 1 Wall Street to 21 White Street, three of which are in Maiden Lane.

William Gibbs, father of John Gibbs, of Belleville, N. J. (who cut the dies for and struck this token, probably between 1837 and 1840), died in 1856. He lived at 5th Ave. and 71st St., where he conducted a large flower and vegetable garden so early as 1846, and it is fair to presume from about 1837, a year or two following his arrival from England. The firm of William and Josiah C. Mott is recorded in the Directory for 1789 as clocks, etc., 240 Water St. In 1802, 49 Frankfort St. and other addresses follow, and I believe the last vestige of the firm shows at 266 Pearl St., where they remained from 1816 to 1828. Mr. Crosby, on p. 335, "Early Coins of America," refers to this subject.

The variety of planchet with the varying state of dies is evidence of striking for many years subsequent to date of piece. I assume the dies remained perfect until 1793, when the thick planchets were introduced to conform to the Cents issued in that year. All defects appearing, I judge, are later impressions, while the closing issues returned to thin planchets, owing possibly to the increased cost of the metal, or the indifference of the issuer on account of local prestige and facility of circulation.

Two of the above specimens are from perfect dies — one on a thin planchet, the other thick. The remainder show three stages of the break.

CASTLE GARDEN.

This is a decidedly interesting souvenir of a noted structure and prominent landmark in the City of New York, which still stands, though in a new dress, as a forceful memento of many varied scenes of military pageant and merry and famous entertainment.

In December, 1806, the city ceded to the National Government the ground under water on which stands the present Castle Garden. The building soon after erected on this site was named Castle Clinton, but is referred to in the Directories of the time as Fort Clinton, the cost of the work to the Government reaching several hundred thousand dollars. The structure was circular, 600 feet in circumference, the walls being 8 feet in thickness and 35 feet in height above the water, and the roof, sloping slightly from the centre, covering an area capable of holding upwards of 10,000 people.

In 1823 the Fort was receded to the city by the Government, and vacated as a military post on the 16th of June of that year, and in the May following was inaugurated as a place of fashionable entertainment under the name of Castle Garden, which it still retains. Since that time it has been the scene of many notable events. The first of these was of historic interest, being the reception of General La Fayette, "the friend of America." Here he landed from the ship "Cadmus," and was accorded a most enthusiastic welcome by an immense assemblage, in which the national and local celebrities were prominent; and on his return from Boston, a grand fête was given in his honor at the Castle, attended by over 6,000 people.

Here also, in 1850, the great "Swedish Nightingale," Jenny Lind, appeared under the auspices of P. T. Barnum, America's greatest showman, in a series of the most successful concerts ever given in this country.

Castle Garden is also known far and wide as the portal through which so many thousands from foreign lands have found the talisman of free and glorious citizenship (although perhaps, of late years, the door has scarcely been sufficiently guarded).

After these vicissitudes, it has now settled into the home of a piscatorial colony, and a place of amusement and instruction for the citizens and the city's numerous visitors.

His name last appears in 1860 at 38 William St. Chas. I. Bushnell publishes the above tokens in his list of N. Copies of letters from St. Louis parties responding to my inquiries about the Doctor accompany the card; one of them states definitely that it was struck in 1844.

180 BOUTWELL, O. & P. | N^o 7 | GRAND | DIVISION ST | TROY N. Y. | 1835 R̄ Bakers & — Confectioners. By * T(rue). Fine and very rare. 30½. Plate. I

181 A specimen from the same dies, struck on a 2 Real piece of Potosi mint, 1774. Good, very rare. I have never learned of a duplicate. I

Oliver Boutwell began as a baker at 314 River St. in 1831. In 1833 he moved to 7 Grand Division St. He took in as partner his brother, Phardice, in 1836. The following year he abandoned the baking business. In 1839 he established himself as a miller near the Sloop Lock, and continued alone until after the War. Subsequently the style was O. Boutwell & Son, and, later, the Boutwell Milling & Grain Co., which still exists. Oliver Boutwell's card is found among the little War Tokens.

I am not aware that this card has ever been classed with the rarities, but I think it significant that in a search for nearly three years I was unable to find one.

The history of this and the following piece I believe to be unknown to Numismatists. There is no doubt, however, in my mind, that they were put in use between the years 1835 and 1837, and I shall include them in my Second Edition of Hard Times Tokens. William Bellamy of New York, under date of June 28th, 1863, wrote to Geo. B. Mason, to whom he had sold one of these pieces, that he "found it in Washington Park or Parade Ground about the year 1835 or 1836." His recollection of the date was aided by the fact that he was on his way to visit the young lady who shortly after became his wife.

I regard it as a most reasonable conclusion, that this and the preceding token were issued by the same firm, and possibly the 16 links establish the date of issue, as in 1834 there were 16 States in the Union.

- Ricketts's Circus has generally been catalogued as a Philadelphia Token, although New York and also Boston claim its paternity. Washington was one of its patrons in Philadelphia. It was located at 12th and Market Sts. from October, 1792 until the spring of 1795, when it went to Boston. It is recorded that "Rickett's Amphitheatre offered to exhibit one evening for the benefit of the poor (of New York city) to purchase firewood, which was accepted by the corporation, and the sum of \$340 was collected on the occasion." It was destroyed by fire in Philadelphia in December, 1799.

Alexander Walsh was, for upwards of 40 years, one of the most prominent merchants in Rensselaer Co. His store was widely known as "Walsh's Museum"; his "Plough Penny" circulated freely through all of Northern New York; he participated in the ceremonies on the opening of the Erie Canal, by invitation of Gov. De Witt Clinton, whom he accompanied on the first boat, and received with the other guests a silver medal commemorating the occasion. He entertained Henry Clay at his home in 1839; in 1846 he retired from business and died three years later.

The Park Theatre, which this token is generally believed to refer to, was commenced June 1st, 1795, and completed in 1798. The proprietors petitioned for permission to erect

a portico over the sidewalk, but it was not granted. The theatre was burned May 25th, 1820 (also in 1821, according to one authority). In February, 1824, a grand ball was given for the benefit of the Greeks, when \$2000 was realized. A third conflagration of the theatre took place Dec. 16th, 1848.

This very rare and highly interesting American Indian Medal, unknown to the fraternity of coin collectors until about the year 1885, was probably struck between the years 1806 and 1811. The design of the Indian medal inaugurated in the time of President Adams was probably its prototype, and as it was to serve a similar purpose among the Indians, its strength as a seal to friendship, was probably designed by the promoters to be of equal consideration. For a full account of the medal, see A. J. of N. for July, 1897.

THE KEARNEY CROSS. *Gold and Enamel.* "This decoration was adopted at a meeting of officers representing the regiments which had served under Major-General Philip Kearney, held in camp near Falmouth, Va., Nov. 29, 1862. COINAGE OF THE MEXICAN REVOLUTIONARY GENERAL,
JOSE MARIA MORELOS.

The copper pieces in this magnificent collection are chiefly from the find of Morelos coins which formed the basis of my paper before the Am. Num. and Arch. Soc'y in 1886. Much of the silver is from the collection of the late Father Fischer, a catalogue of which was published by the Scott Stamp and Coin Co., in 1891. There are no duplicates, although the die varieties are quite extensive.

- A piece of the same design, though from very different dies, was in my sale of April
12, 1897, and I attributed it to East Florida (a part of the present State of Florida),
under Spanish domain, at the time when it was issued. Herrera has nothing to say on
this point, as it is arranged in its alphabetical order under "América Española"; there-
fore, he escapes further criticism. Mr. Betts prefers Uruguay for its home, and gives his
reasons as follows:—"So attributed because it is so entirely different in design, style of
work, etc., from anything emanating from the West Indies or their neighborhood; because
the region in which the town of Florida (a place of some importance about fifty miles
nearly north from Montevideo), is situated, was for nearly two hundred years known as
the *Banda Oriental*, and was at the accession of Charles IV, in the possession of Spain;
and because it would seem entirely natural that it should be so called by way of distinc-
tion. Herrera calls the device on the reverse a "Sea Star" (*Estrella de Mar*), by which I
suppose he means a *Star Fish*.

- Regarding this piece, Mr. Betts observes:—"I so attribute this because the name originally was '*Colonia di Sancti Spiritus.*' The *monstrance*, as a device on the reverse seems to point in the same direction as being entirely appropriate, and the abbreviation Colª would be a very likely abbreviation for Colonia. Herrera classes it as uncertain (*incierto*) but follows Rivadieira in suggesting '*Santiago de Compostella*' as probable."
